

Criterion A: interview transcripts

What kind of app would you like?

I am having troubles keeping track of my classes on my 7-day timetable. I would like a timetable app that will allow me to keep track of this. I would also like the ability for me to be able to keep track of my assignments as I have trouble keeping track of them. I currently keep all of my timetables and assignments on pieces of paper. With this I also want my assignments to notify me before they are due.

Criterion E: interview transcripts

I have a Samsung S20, and the app runs smoothly on it. It was very easy and comprehensive to what class I had and the time it starts and ends. Also, some of my classes have changed to study periods so it has been helpful to have a delete option, however, maybe implement a 'confirm delete button' so I don't accidentally delete a class. I would prefer for the classes to be ordered by time, rather than when I added them to my timetable.

My favourite part of the app was the ability to create assignments, as often I forget to do them. So adding the time they're due was helpful. However, I would like to get a notification the day before it was due so I wouldn't forget. I would prefer for the classes to be ordered by time, rather than when I added them to my timetable.
